

# Faculty of Medicine

## 医学部

The aim of the Faculty of Medicine is to cultivate researchers, physicians, and health science specialists who are not only equipped with knowledge and technical skills in the medical and health sciences, but are also mindful of medical ethics and are able to cope flexibly with advances in medical science.

Taking into consideration the unique natural environment, geographical location and historical characteristics of Okinawa, the faculty is committed to tackling regionally-unique issues such as the establishment of a locally-based, self-contained model of medical treatment catered to island environments. In addition, the faculty consistently aims to engage in international academic exchange and healthcare primarily centered in Asia and the South Pacific region.

医学部は、医学と保健学に関する専門の知識と技術を修得し、高い倫理性を身につけ、医学・医療の進歩や社会的課題に柔軟に対応しうる医師、保健・医療従事者を育成することを基本目的としています。

加えて、沖縄県の置かれた自然的、地理的及び歴史的特性をふまえ、島嶼環境における地域完結型医療の構築など地域特性に根ざした医学・医療の課題解決に努めると共に、アジア・南太平洋地域を中心とする国際的な学術交流及び保健医療を展開する医学部を目指しています。
